

17.228 IRRIGATION

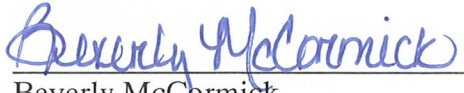

Water customers may elect to have the Town install a separate three-quarter inch (3/4") water meter to be attached to an irrigation system which is not connected in any way to the pipes which transmit potable water to any residence, business or structure. Water which flows through the irrigation meter is not to be used for any purpose other than irrigation.

No sewer charges will be charged on water flowing through irrigation meters, but water shall be charged the applicable Town rates. The Town shall collect an installation charge at the time of connection based upon the current fee scale as adopted by the Town Council.

Anyone who connects or causes to be connected a line metered by an irrigation meter to a residence, business or structure for potable water or uses the water metered by an irrigation meter for any purpose other than irrigation shall be guilty of a misdemeanor. Each day of such unlawful connection or usage shall be considered a separate offense.

THIS DONE IN COUNCIL ASSEMBLED THIS 14th DAY OF OCTOBER, 2019.
